

StarForce CD/DVD-R:

Effective and simple way to protect a small batch of optical media

What's the secret?

- ➔ The glass master which is used to produce StarForce CD/DVD-R has been exclusively designed by StarForce engineers
- ➔ Its unique topology doesn't match up with any other R/RW discs on Earth
- ➔ It's physically impossible to get a working copy without StarForce CD/DVD-R disc

What's happens while copying?

Protected program burned on SF CD/DVD-R

Copying attempt

Various R/RW discs

Copy launch

Result

Implementation steps

-  1. Protect files using Protection Studio tool
-  2. Make a protected program distributive
-  3. Burn pre-master disc on StarForce CD/DVD-R
-  4. Extract disc key using Protection Studio tool
-  5. Burn master disc on StarForce CD/DVD-R
-  6. Duplicate on StarForce CD/DVD-R discs

PS. SF CD/DVD-R discs are printable!

Try before you buy

Before making a decision to purchase something everyone would like to try what he/she intends to buy. Even so when purchasing a complex software product such as the StarForce system one has to ensure that all efforts are maximized. With respect to selecting a software protection and distribution solution on your own software products we're quite confident that without evaluating our product it will be impossible to propel the decision. StarForce aligns exclusively with first-class business partners; we look forward to gaining this trustworthy relationship & strongly recommend that you try our product free of charge!
