

StarForce Crypto

Professional solution for executable code protection from reverse engineering and hacking suitable to any software type and distribution method.

StarForce Crypto protects executable code areas of intellectual and commercial value. The tool provides reliable protection making it very difficult to analyze the software code.

StarForce Crypto is an encryption-based protection tool which transforms executable code into StarForce virtual machine instructions making analysis and modification of the software code considerably more difficult for any hacker.

StarForce Crypto is easy to install online using the free Protection Studio tool.

StarForce Crypto features and benefits:

- Reliable protection of software algorithms and data against reverse engineering and hacking
- Maximum compatibility
- Adjustable level of protection
- Easy protection integration
- Allows to strengthen protection further by using other StarForce solutions that implement binding to optical disc, computer hardware, server configuration etc.
- External binding
- No additional equipment (such as hardware keys) or software required for protecting and running protected applications
- Optional software protection implementation by StarForce engineers
- 24/7 customer support

Exclusive StarForce Crypto feature:

External (user defined) binding

External binding enables software developers to implement authentication of an internal application function, defined by developer.

Benefits of external binding:

- Flexible protection settings
- Integration into existing licensing modes
- Extra protection from unauthorized distribution

Supported files formats:

- Standard Win 32/64 executable files
- Standard Win 32/64 dynamic link library (DLL) files
- .Net applications
- Data files if called by protected application files directly
- Flash applications (executable and data files)
- Installer applications

* Encrypted and/or packed executable files are not supported.

Supported operating systems:

- Windows 2000
- Windows XP 32/64-bit editions
- Windows Vista 32/64-bit editions
- Windows Server 32/64-bit editions
- Windows 7 32/64-bit editions

StarForce Crypto system requirements:

- Internet connection (broadband recommended)
